Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Art Unit: 2618

Continuation PTO-303

The propose amendments filed after a final rejection, but prior to the date of filing a brief, will not be entered because they raise new issues that would require further consideration and/or search. The limitation of claim 1 now states: an arrangement for testing a radio device comprising: a waveguide closed at both of its ends; and comprising a holder arrange to hold the radio device party inside the waveguide. The claim has been amended to further clarify the invention; therefore, the scope of the claims has changed and further consideration and search is required. The limitation of claim 17 now states: a method of testing a radio device, wherein the radio device to be tested is mounted by means of a holder *such that the radio device is held* party inside a waveguide closed at both of its ends. The claim has been amended to further clarify the invention; therefore, the scope of the claims has change and further consideration and search is required.
